"I saw this bull at Grant's in December, spent five minutes on him, walked out of the pen and told myself, 'I am going to own this one!' This is one of the best bulls I have seen for advancing the beef industry. Balanced, moderate framed, thick topped and ribbed, and perfect hoof and legs – all put together with a small head, smooth shoulder, looking like a calving machine! This bull has all the traits this breed needs to compete in today's and tomorrow's markets."
